

# Little Elves Workshop at The Hershey Story Museum

I am going to visit Little Elves Workshop in the museum's classroom. There are colorful decorations at the entrance.

I will wait in line with my adult. When it's my turn, someone will take my ticket and hand me a ball of chocolate clay. There may be music and other people in the room.

I will use a rolling pin to flatten the clay and I will select a cookie cutter shape for my ornament. There are many shapes to choose from!

I will place the cookie cutter on my clay and hold it down while I pull away the extra clay.

Someone will help me place my ornament on a piece of wax paper. I will carefully carry it to the Icing station where I will decorate my ornament.

I can carefully squeeze icing from the container onto my ornament. There are several colors I can use.

When I finish decorating my ornament, I will get a box that I can color with markers. Someone will help me place my ornament inside the box when I finish.

I see a table of old-fashioned toys I may play with after I finish decorating my ornament and box.

I also see a large picture of playful elves and more colorful decorations. If I want to, I can have my picture taken with the decorations.
